#### VIENNA GLOBAL HISTORY COLLOQUIUM: WHERE IS THE GLOBAL?

The Vienna Global History Group convenes a colloquium where we invite Vienna-based global historians to discuss their ongoing research projects. The presentations and discussions address the annual theme – (Im-)Mobilities – as well as the following key questions:

- What is our own take on „the global“ and what part does the global perspective play in our research?
- What are the archives of global history?
- How do we teach global history?
- How can a global historical perspective make an impact in present-day social and political debates?
